

## French

This term we will be learning about French schools and what it is like to learn in a French classroom. We will be able to discuss and identify similarities and differences between French and English schools, and designing a French classroom, labelling items within.

## Science

During this term we will be exploring living things. We will be understanding the process of making new plants and developing our understanding of the life cycle of mammals, amphibians and insects. We will also be researching Jane Goodall and thinking about her important work with chimpanzees.

## PE

This term we will be working on developing our swimming strokes effectively. We will be understanding how the water supports our bodies, exploring different ways to stay upright and balanced.

## Music

This term we will be 'Dancing in the Street', exploring Motown music and learning how to identify the pulse of a song.

## CURRICULUM OFFER YEAR 5 SUMMER 1 2019

### English

In English, we will be continuing on our creative journey with narrative writing, this term using Disney Pixar's 'Lava' as stimulus. We will be using up-levelled vocabulary to add detail and description to our writing.

Our Guided Reading text continues with the varied stories of 'Tales of Hidden Heroes'. This term we will be reading the historical text 'The Legend of Sir Gareth', who embarks upon a quest to rescue a lady imprisoned

### History

We will be finding out about the Vikings and the impact they had upon Britain. We will be understanding Viking raids and invasions, warriors, weapons, Norse Myths and Legends. We will delve into Viking life with a visit from Hrothgar the Viking, immersing us in sights and smells of Viking times.

### Design and Technology

We will be researching the history of the Warburton family, thinking about how their influence has shaped the bread we eat today. We will be following a design brief to weigh out ingredients and bake a loaf of bread.

### Trips and Visits

This term we have an extremely exciting visit from Hrothgar the Viking on **Friday 10<sup>th</sup> May**. Hrothgar will be bringing his Viking longship and heavy chainmail and taking us back in time to experience a Viking raid!

### Maths

This term we will further develop our understanding of decimals. We will be applying the formal methods of addition and subtraction to numbers with up to three decimal places. We will then move on to multiplying and dividing decimal numbers by 10, 100 and 1,000 and exploring the most efficient ways to work with decimal numbers.

We will then move on to geometry where we will be building upon prior knowledge to reason about the lengths and angles of quadrilaterals. Further on in the term we will be using mathematical equipment to measure angles to check calculations and to discuss the properties of shapes and angles that we are to explore.
